

GreenWorx Cleaning Solution
 Bio Tech Probio WST (Water Soluble Tablet)
 Bio Tech Probio Enzymatic WST (Water Soluble Tablet)
 Pro-Biotic Deep & Maintenance cleaning

Products/Ranges: Bio Tech Probio WST & Bio Tech Probio Enzymatic WST
 Product Stages Assessed: Whole of life +re-use potential
 Product Type: Cleaning Product
 Licenced Site/s: Kya Sands, South Africa
 Licence Number: GRE:CP12:2023:PH
 Licence Date: 26th June 2023
 Valid To: 29th May 2025
 Standard: GGT CP International v1.1
 Screening Date: 20th June 2023
 PHD URL: www.globalgreentag.co.za/certificate/2268

PHD Summary	Inventory Threshold:	Inventory Method:
Percentage Assessed: 100%	100ppm Product Level	Nested Materials

- GreenTag Banned List Compliant.
- Meets "Green Cleaning" requirements for Green Star.
- Meets WELL™ v1.0 Features 97: Material Transparency and WELL™ v2.0 Features – X07: Material Transparency and X08: Material Optimisation.
- No worker exposure to Carcinogens, Mutagens, Reproductive Toxicant or Endocrine Disruptors.
- No user exposure to Carcinogens, Mutagens, Reproductive Toxicant or Endocrine Disruptors.
- No environmental exposure to Carcinogens, Mutagens, Reproductive Toxicants or Endocrine Disruptors.

Declared by:
 Global GreenTag
 International Pty Ltd

David Baggs
 CEO

Verified compliant with:
 ISO 14024 & ISO 17065

1.0 Scope

The Global GreenTag International (GGT) Product Health Declaration (PHD) has been designed to provide an additional level of service to the green product sector in facilitating an easier understanding of both the hazard and risks associated with any certified products, and is intended to indicate:

- Chemical hazards of both finished product and unique ingredients to a minimum level of 100ppm for final product throughout the product life cycle (including any VOC or other gaseous emissions);
- An assessment of exposure or risk associated with ingredient handling, product use, and disposal in relation to established mitigation and management processes;

It is not intended to assess:

- substances used or created during the manufacturing process unless they remain in the final product; or
- substances created after the product is delivered for end use (e.g., if the product unusually degrades, combusts or otherwise changes chemical composition).

GGT PHDs are only issued to products that have passed GGT Standards' certification requirements. The Level of Assessment (BronzeHEALTH, SilverHEALTH, GoldHEALTH or PlatinumHEALTH) of a PHD rating relates ONLY to a Human Health Toxicity Assessment and is declared separately and not equivalent to the overall Bronze, Silver Gold or Platinum Green Tag Certification Mark Tier Levels of LCARate.

1.2 Preparing a PHD

GGT PHDs are prepared in the format of a transparency document which utilizes Hazard Classifications from the UN Globally Harmonised System of Classification and Labelling of Chemicals (GHS). Hazard Classifications are then risk assessed with a focus on the In Use stage for an outcome of Certification. Assessments are undertaken by GGT Qualified Exemplar Global Lead Auditors and subsequently accepted for Certification by the GGT Program Director (also a Qualified Exemplar Global Lead Auditor) under the International Standard v4.0/4.1, Personal Products Standard v1.0/1.1, or Cleaning Products Standard v1.1/1.2 and above Program Rules.

1.3 External Peer Review

Every GGT PHD is independently peer-reviewed by an external Consultant Toxicologist and Member of the Australasian College of Toxicology & Risk Assessment.

2.0 Declaration of Ingredients

Where a manufacturer wishes recognition under a rating program that requires transparency of ingredients, such as LEED[®] v4.0 & v4.1, WELL[®] v1.0 & v2.0, Green Star[®], the following information is declared from the audit:

Colour	Ingredient Hazard Disclosure
Green	Level 4 The hazard level of this ingredient indicates that the ingredient has no toxic hazard statements with no identified health effects.
Yellow	Level 3 The hazard level of this ingredient indicates that the ingredient is mildly toxic and/or has short/medium term reversible health effects.
Orange	Level 2 The hazard level of this ingredient indicates that the ingredient is moderately toxic and/or with a moderate health effects.
Red	Level 1 The hazard level of this ingredient indicates that the ingredient is highly toxic with a potential for severe health effects.
Black	Level 0 The hazard level of this ingredient indicates that the ingredient is highly toxic with a potential for severe health effects and is banned from being detectable above trace amounts in the final product.
Grey	Grey Chemical Not able to be categorised due to lack of toxicity impact information.
Colour	Risk Assessment & In Use Health Assessment Outcome
Green	No Concerns The risk assessment outcomes for the hazard level and percentage of ingredient used in the product after risk assessment is considered highly unlikely and therefore without concerns.
Yellow	Human Health Comment The risk assessment outcome for the hazard level and percentage of ingredient used in the product is after risk assessment considered low with an unlikely potential risk.
Orange	Issue of Concern or Issue of Concern Minimised The risk assessment outcome for the hazard level and percentage of ingredient used in the product is after risk assessment considered low to high with a higher than unlikely potential for risk.
Red	Red Light Comment or Red Light Comment Minimised The risk assessment outcome for the hazard level and percentage of ingredient used in the product is after risk assessment considered low to extremely high with a moderate potential for risk.
Dark Red	Red Light Exclusion The risk assessment outcome for the hazard level and percentage of ingredient used in the product is after risk assessment considered medium to extremely high with a likely potential for risk.
Grey	Grey Chemical Not able to be categorised due to lack of toxicity impact information.
Black	Banned Ingredients Level 0 Hazard Level categorised chemicals such as Substances of Very High Concern in the International Standard v4.0/v4.1 and/or Petroleum, Parabens plus a wide range of additional compounds stipulated by the Personal Products Standard v1.0/1.1 and Cleaning Products Standard v1.1/1.2.

Global GreenTag International Pty Ltd (Global GreenTag) is not a medical professional organisation. Global GreenTag does not purport to provide medical advice, and makes no warranty, representation, or guarantee regarding the declaration that it provides in relation to any allergies, chemical sensitivities or any other medical condition, nor does Global GreenTag assume any liability whatsoever arising out of the application or use of any product or piece of equipment that has been chemically assessed by Global GreenTag.

The chemical assessments carried out provide transparent information peer reviewed by a consultant toxicologist regarding the chemical make-up and ingredients of certain materials and products, but such assessments are not to be taken as any form of medical assessment or health advice and are not targeted towards providing specific solutions to allergenic conditions or any other type of medical concerns.

Users must carry out their own investigations if they are concerned about specific medical conditions and the impact of certain products or ingredients in relation to specific medical concerns.

Global GreenTag takes no responsibility and is not liable in any way with respect to any medical or health issues arising from a person's use of materials or products that have been chemically assessed by Global GreenTag. Global GreenTag shall not be liable for any direct, indirect, punitive, incidental, special or consequential damages to property or life whatsoever, arising out of or connected with the use or misuse of any materials or products that have been assessed by Global GreenTag.

Ingredient Name	CAS Number OR Function	Proportion in finished product	GHS, IARC & Endocrine Category	REACH	Ingredient Assessment	Whole Of Life Assessment	In Use Health Assessment	Comment
Citric Acid	77-92-9	50-60%	H319 (Causes serious eye irritation)	OK				<p>The ingredient may cause irritation when in contact with eyes.</p> <p>GreenWorx has ISO 9001,14001 certification and OHS policy/procedures in place to mitigate hazards due to handling chemicals.</p> <p>The final product is in tablet form which reduce its direct hazard to end user. The usage instructions mentioned in the product shall be followed.</p> <p>Recycled Content: None Nanomaterials: Yes</p>
Potassium Sorbate	24634-61-5	0.5-2%	None	OK				<p>No identifiable risk in manufacturing stage and end user stage.</p> <p>Recycled Content: None Nanomaterials: No</p>
P400 Salt	Micro organism concentrate	0-1%	None	OK				<p>No identifiable risk in manufacturing stage and end user stage.</p> <p>Recycled Content: None Nanomaterials: No</p>
LAS 80 (3ingredients)								
Sodium Dodecyl Benzene Sulphonate	25155-30-0	10-20%	H302 (Harmful if swallowed) H315 (Causes skin irritation) H318 (Causes serious eye damage)	OK				<p>The ingredient may cause hazard when in contact with skin and eye. It is also hazard if ingested.</p> <p>GreenWorx has ISO 9001,14001 certification and OHS policy/procedures in place to mitigate hazards due to handling chemicals.</p> <p>The final product is in solid tablet form which reduce its Hazards related to its Hstatements to the end user.</p> <p>Recycled content: None Nanomaterials: No</p>
Water	7732-18-5	1-5%	None	OK				<p>No identifiable risk in manufacturing stage and end user stage.</p>
Inorganic salt	N/A	15-20%	H315 (Causes skin irritation) H319 (Causes serious eye irritation)	OK				<p>The ingredient may cause skin &Eye irritation.</p> <p>GreenWorx has ISO 9001,14001 certification and OHS policy/procedures in place to mitigate hazards due to handling chemicals.</p> <p>The final product is in solid tablet form which reduce its Hazards related to its Hstatements to the end user.</p> <p>Recycled content: None Nanomaterials: No</p>
Brilliant Blue Lake	Colourant	0.1-1%	None	OK				<p>No identifiable risk in manufacturing stage and end user stage.</p>
Sodium Bicarbonate	144-55-8	30-40%	H302 (Harmful if swallowed) H315 (Causes skin irritation) H319 (Causes serious eye irritation)	OK				<p>The ingredient may cause hazard when in contact with skin and eye. It is also hazard if ingested.</p> <p>GreenWorx has ISO 9001,14001 certification and OHS policy/procedures in place to mitigate hazards due to handling chemicals.</p> <p>The final product is in solid tablet form which reduce its Hazards related to its Hstatements to the end user.</p> <p>Recycled content: None Nanomaterials: No</p>

Sodium Carboxymethyl Cellulose	9004-32-4	0.1-1%	None	OK				No identifiable risk in manufacturing stage and end user stage. Recycled content: None Nanomaterials: No
Herbaline Frescah	Fragrance	2-10%	H226 (Flammable liquid and vapour) H302 (Harmful if swallowed) H311 (Toxic in contact with skin) H313 (Toxic in inhaled) H314 (Causes severe skin/eye burn) H315 (Causes skin irritation) H317 (Cause skin reaction)	OK				The ingredient may cause hazard (burn, irritation) if Ingested or when in contact with skin & eye. GreenWorx has ISO 9001,14001 certification and OHS policy/procedures in place to mitigate hazards due to handling chemicals. The end user shall use proper gloves when using the product. Recycled content: None Nanomaterials: No
Lipase Blend	Biocatalysts	0.1-1%	H334 (May cause allergy or asthma symptoms or breathing difficulties if inhaled)	OK				The ingredient may cause allergy or asthma symptoms of breathing difficulties if inhaled for long time. GreenWorx has OHS policy/procedures in place to mitigate hazards due to handling chemicals. The percentage ingredient in the final product is 0.20% which may not have recognisable hazard impact on the end user. The user shall follow the instructions on the product labels. Recycled content: None Nanomaterials: No
Protease Blend	Biocatalysts	0.1-1%	H334 (May cause allergy or asthma symptoms or breathing difficulties if inhaled)	OK				The ingredient may cause allergy or asthma symptoms of breathing difficulties if inhaled for long time. GreenWorx has OHS policy/procedures in place to mitigate hazards due to handling chemicals. The percentage ingredient in the final product is 0.20% which may not have recognisable hazard impact on the end user. The user shall follow the instructions on the product labels. Recycled content: None Nanomaterials: No

Comments:
Please follow the instructions according to the product label.
