| PHD Summary | Inventory Threshold: | Inventory Method: |
| Percentage Assessed: 100% | 100ppm Product Level | Nested Materials |

- Meets "Green Cleaning" requirements for Green Star.
- Meets USGBC LEED® v4.0 and v4.1 Rating System MR Credit: "Building Product Disclosure and Optimisation - Material Ingredients" - Option 1: Material Ingredient Reporting and Option 2 - International ACP - REACH Optimisation.
- Meets WELL™ v1.0 Features 97: Material Transparency and WELL™ v2.0 Features – X07: Material Transparency and X08: Material Optimisation, X11:Cleaning Products & Protocols (Part2).
- No worker exposure to Carcinogens, Mutagens, Reproductive Toxicant or Endocrine Disruptors.
- No user exposure to Carcinogens, Mutagens, Reproductive Toxicant or Endocrine Disruptors.
- No environmental exposure to Carcinogens, Mutagens, Reproductive Toxicants or Endocrine Disruptors.

Declared by:
Global GreenTag
International Pty Ltd

David Baggs
CEO

Verified compliant with:
ISO 14024 & ISO 17065

1.0 Scope

The Global GreenTag International (GGT) Product Health Declaration (PHD) has been designed to provide an additional level of service to the green product sector in facilitating an easier understanding of both the hazard and risks associated with any certified products, and is intended to indicate:

- Chemical hazards of both finished product and unique ingredients to a minimum level of 100ppm for final product throughout the product life cycle (including any VOC or other gaseous emissions);
- An assessment of exposure or risk associated with ingredient handling, product use, and disposal in relation to established mitigation and management processes;

It is not intended to assess:

- substances used or created during the manufacturing process unless they remain in the final product; or
- substances created after the product is delivered for end use (e.g., if the product unusually degrades, combusts or otherwise changes chemical composition).

GGT PHDs are only issued to products that have passed GGT Standards' certification requirements. The Level of Assessment (BronzeHEALTH, SilverHEALTH, GoldHEALTH or PlatinumHEALTH) of a PHD rating relates ONLY to a Human Health Toxicity Assessment and is declared separately and not equivalent to the overall Bronze, Silver Gold or Platinum Green Tag Certification Mark Tier Levels of LCARate.

1.2 Preparing a PHD

GGT PHDs are prepared in the format of a transparency document which utilizes Hazard Classifications from the UN Globally Harmonised System of Classification and Labelling of Chemicals (GHS). Hazard Classifications are then risk assessed with a focus on the In Use stage for an outcome of Certification. Assessments are undertaken by GGT Qualified Exemplar Global Lead Auditors and subsequently accepted for Certification by the GGT Program Director (also a Qualified Exemplar Global Lead Auditor) under the International Standard v4.0/4.1, Personal Products Standard v1.0/1.1, or Cleaning Products Standard v1.1/1.2 and above Program Rules.

1.3 External Peer Review

Every GGT PHD is independently peer-reviewed by an external Consultant Toxicologist and Member of the Australasian College of Toxicology & Risk Assessment.

2.0 Declaration of Ingredients

Where a manufacturer wishes recognition under a rating program that requires transparency of ingredients, such as LEED[®] v4.0 & v4.1, WELL[®] v1.0 & v2.0, Green Star[®], the following information is declared from the audit:

| Colour | Ingredient Hazard Disclosure |
|----------|---|
| Green | Level 4 The hazard level of this ingredient indicates that the ingredient has no toxic hazard statements with no identified health effects. |
| Yellow | Level 3 The hazard level of this ingredient indicates that the ingredient is mildly toxic and/or has short/medium term reversible health effects. |
| Orange | Level 2 The hazard level of this ingredient indicates that the ingredient is moderately toxic and/or with a moderate health effects. |
| Red | Level 1 The hazard level of this ingredient indicates that the ingredient is highly toxic with a potential for severe health effects. |
| Black | Level 0 The hazard level of this ingredient indicates that the ingredient is highly toxic with a potential for severe health effects and is banned from being detectable above trace amounts in the final product. |
| Grey | Grey Chemical Not able to be categorised due to lack of toxicity impact information. |
| Colour | Risk Assessment & In Use Health Assessment Outcome |
| Green | No Concerns The risk assessment outcomes for the hazard level and percentage of ingredient used in the product after risk assessment is considered highly unlikely and therefore without concerns. |
| Yellow | Human Health Comment The risk assessment outcome for the hazard level and percentage of ingredient used in the product is after risk assessment considered low with an unlikely potential risk. |
| Orange | Issue of Concern or Issue of Concern Minimised The risk assessment outcome for the hazard level and percentage of ingredient used in the product is after risk assessment considered low to high with a higher than unlikely potential for risk. |
| Red | Red Light Comment or Red Light Comment Minimised The risk assessment outcome for the hazard level and percentage of ingredient used in the product is after risk assessment considered low to extremely high with a moderate potential for risk. |
| Dark Red | Red Light Exclusion The risk assessment outcome for the hazard level and percentage of ingredient used in the product is after risk assessment considered medium to extremely high with a likely potential for risk. |
| Grey | Grey Chemical Not able to be categorised due to lack of toxicity impact information. |
| Black | Banned Ingredients Level 0 Hazard Level categorised chemicals such as Substances of Very High Concern in the International Standard v4.0/v4.1 and/or Petroleum, Parabens plus a wide range of additional compounds stipulated by the Personal Products Standard v1.0/1.1 and Cleaning Products Standard v1.1/1.2. |

Global GreenTag International Pty Ltd (Global GreenTag) is not a medical professional organisation. Global GreenTag does not purport to provide medical advice, and makes no warranty, representation, or guarantee regarding the declaration that it provides in relation to any allergies, chemical sensitivities or any other medical condition, nor does Global GreenTag assume any liability whatsoever arising out of the application or use of any product or piece of equipment that has been chemically assessed by Global GreenTag.

The chemical assessments carried out provide transparent information peer reviewed by a consultant toxicologist regarding the chemical make-up and ingredients of certain materials and products, but such assessments are not to be taken as any form of medical assessment or health advice and are not targeted towards providing specific solutions to allergenic conditions or any other type of medical concerns.

Users must carry out their own investigations if they are concerned about specific medical conditions and the impact of certain products or ingredients in relation to specific medical concerns.

Global GreenTag takes no responsibility and is not liable in any way with respect to any medical or health issues arising from a person's use of materials or products that have been chemically assessed by Global GreenTag. Global GreenTag shall not be liable for any direct, indirect, punitive, incidental, special or consequential damages to property or life whatsoever, arising out of or connected with the use or misuse of any materials or products that have been assessed by Global GreenTag.

| Ingredient Name | CAS Number OR Function | Proportion in finished product | GHS, IARC & Endocrine Category | REACH | Ingredient Assessment | Whole Of Life Assessment | In Use Health Assessment | Comment |
|------------------------------|------------------------|--------------------------------|--------------------------------|-------|---|--|---|--|
| Propylene Glycol | 57-55-6 | 0-1% | H410 | OK |  |  |  | The substance may cause harm to aquatic life. Greenworx has ISO 9001,14001 and OHS policy which reduce harmful impacts to environment. In use stage,the product label states the use of proper gloves and usage dose is recommended thus minimizing risk to the user. Recycled Content: None Nanomaterials: no |
| Sodium Lauryl Ether Sulphate | Preservative | 0-5% | H302,H319 | OK |  |  |  | The substance may cause harm when in contact with eyes. Greenworx has ISO 9001,14001 and OHS policy which reduce harmful impacts to factory workers in contact with substance using proper PPE. In use stage,the product label states the use of proper gloves and usage dose is recommended thus minimizing risk to the user. Recycled Content: None Nanomaterials: no |
| Phenoxyethanol | Emulsifier | 10-20% | H302,H318,H335 | OK |  |  |  | The substance may cause harm when in contact with skin,eyes and respiratory irritant. Greenworx has ISO 9001,14001 and OHS policy which reduce harmful impacts to factory workers in contact with substance using proper PPE. In use stage,the product label states the use of proper gloves and usage dose is recommended thus minimizing risk to the user. Recycled Content: None Nanomaterials: no |
| Anionic Surfactant | Preservative | 0-5% | H315, H319 | OK |  |  |  | The substance may cause harm when in contact with skin,eyes. Greenworx has ISO 9001,14001 and OHS policy which reduce harmful impacts to factory workers in contact with substance using proper PPE. In use stage,the product label states the use of proper gloves and usage dose is recommended thus minimizing risk to the user. Recycled Content: None Nanomaterials: no |
| Benzenesulfonic acid | 68411-30-3 | 3-10% | H302,H315, H318,H412 | OK |  |  |  | The substance may cause harm when in contact with skin,eyes.Toxic to aquatic life. Greenworx has ISO 9001,14001 and OHS policy which reduce harmful impacts to factory workers in contact with substance using proper PPE and environment. In use stage,the product label states the use of proper gloves and usage dose is recommended thus minimizing risk to the user. Recycled Content: None Nanomaterials: no |
| Cocamide DEA | 68603-42-9 | 0.5-1% | H315, H318 | OK |  |  |  | The substance may cause harm when in contact with skin,eyes. Greenworx has ISO 9001,14001 and OHS policy which reduce harmful impacts to factory workers in contact with substance using proper PPE. In use stage,the product label states the use of proper gloves and usage dose is recommended thus minimizing risk to the user. Recycled Content: None Nanomaterials: no |
| Glycerin | 56-81-5 | 0.05-0.1% | H319 | OK |  |  |  | The substance may cause harm when in contact with eyes. Greenworx has ISO 9001,14001 and OHS policy which reduce harmful impacts to factory workers in contact with substance using proper PPE. In use stage,the product label states the use of proper gloves and usage dose is recommended thus minimizing risk to the user. Recycled Content: None Nanomaterials: no |

| | | | | | | | | |
|----------------------------|-----------|-----------|------------------------------|----|---|--|---|--|
| Methanol | 67-56-1 | 0-0.01% | H225,H301,H311, H331,H370 | OK |  |  |  | The substance may cause harm when in contact with skin,eyes and respiratory irritant. Greenworx has ISO 9001,14001 and OHS policy which reduce harmful impacts to factory workers in contact with substance using proper PPE. In use stage,the product label states the use of proper gloves and usage dose is recommended thus minimizing risk to the user. Recycled Content: None Nanomaterials: no |
| Diethanolamine, DEA | 111-42-2 | 0.01-0.1% | H302,H315,H318, H361,H373 | OK |  |  |  | The substance may cause harm when in contact with skin,eyes and respiratory irritant.It may also damage organ and fertility. Greenworx has ISO 9001,14001 and OHS policy which reduce harmful impacts to factory workers in contact with substance using proper PPE. In use stage,the product label states the use of proper gloves and usage dose is recommended thus minimizing risk to the user. Recycled Content: None Nanomaterials: no |
| Proteases | 9014-01-1 | 0.01-0.1% | H334 | OK |  |  |  | The substance may cause harm when in contact with skin,eyes and respiratory irritant. Greenworx has ISO 9001,14001 and OHS policy which reduce harmful impacts to factory workers in contact with substance using proper PPE. In use stage,the product label states the use of proper gloves and usage dose is recommended thus minimizing risk to the user. Recycled Content: None Nanomaterials: no |
| Amylase | 9000-90-2 | 0.01-0.1% | H334 | OK |  |  |  | The substance may cause harm when in contact with skin,eyes and respiratory irritant. Greenworx has ISO 9001,14001 and OHS policy which reduce harmful impacts to factory workers in contact with substance using proper PPE. In use stage,the product label states the use of proper gloves and usage dose is recommended thus minimizing risk to the user. Recycled Content: None Nanomaterials: no |
| Lipase | 9001-62-1 | 0.01-0.1% | H334 | OK |  |  |  | The substance may cause harm when in contact with skin,eyes and respiratory irritant. Greenworx has ISO 9001,14001 and OHS policy which reduce harmful impacts to factory workers in contact with substance using proper PPE. In use stage,the product label states the use of proper gloves and usage dose is recommended thus minimizing risk to the user. Recycled Content: None Nanomaterials: no |
| Sodium chloride | 7647-14-5 | 2-5% | NONE | OK |  |  |  | Greenworx has ISO 9001,14001 and OHS policy which reduce harmful impacts to factory workers in contact with substance using proper PPE. Recycled Content: None Nanomaterials: no |
| 3lemmons (Lemon Fragrance) | 5989-27-5 | 0.1-0.5% | H226, H315, H317, H410 | OK |  |  |  | The substance may cause harm when in contact with skin,eyes and respiratory irritant. Greenworx has ISO 9001,14001 and OHS policy which reduce harmful impacts to factory workers in contact with substance using proper PPE. In use stage,the product label states the use of proper gloves and usage dose is recommended thus minimizing risk to the user. Recycled Content: None Nanomaterials: no |
| Water | 7732-18-5 | 0.75-1% | NONE | OK |  |  |  | No identifiable risk to the user. Recycled Content: None Nanomaterials: no |

| | | | | | | | | |
|-----------------------------------|------------|-----------|------------|----|---|--|---|---|
| C3 Alcohol ethoxylate | 68439-46-3 | 2-5% | H318 | OK |  |  |  | The substance may cause harm when in contact with skin,eyes and respiratory irritant. Greenworx has ISO 9001,14001 and OHS policy which reduce harmful impacts to factory workers in contact with substance using proper PPE. In use stage,the product label states the use of proper gloves and usage dose is recommended thus minimizing risk to the user. Recycled Content: None Nanomaterials: no |
| Ethanol | 64-17-5 | 2-5% | H225, H319 | OK |  |  |  | The substance may cause harm when in contact with eyes. Greenworx has ISO 9001,14001 and OHS policy which reduce harmful impacts to factory workers in contact with substance using proper PPE. In use stage,the product label states the use of proper gloves and usage dose is recommended thus minimizing risk to the user. Recycled Content: None Nanomaterials: no |
| Alkyl polyethylene glycol ether | 24938-91-8 | 0.5-1.5% | H318 | OK |  |  |  | The substance may cause harm when in contact with eyes. Greenworx has ISO 9001,14001 and OHS policy which reduce harmful impacts to factory workers in contact with substance using proper PPE. In use stage,the product label states the use of proper gloves and usage dose is recommended thus minimizing risk to the user. Recycled Content: None Nanomaterials: no |
| 1,2-dihydroxypropane | 57-55-6 | 3-10% | NONE | OK |  |  |  | Greenworx has ISO 9001,14001 and OHS policy which reduce harmful impacts to factory workers in contact with substance using proper PPE. Recycled Content: None Nanomaterials: no |
| Calcium Chloride | 10043-52-4 | 0-5% | H319 | OK |  |  |  | The substance may cause harm when in contact with eyes. Greenworx has ISO 9001,14001 and OHS policy which reduce harmful impacts to factory workers in contact with substance using proper PPE. In use stage,the product label states the use of proper gloves and usage dose is recommended thus minimizing risk to the user. Recycled Content: None Nanomaterials: no |
| Tri sodium citrate | 68-04-2 | 2-5% | NONE | OK |  |  |  | Greenworx has ISO 9001,14001 and OHS policy which reduce harmful impacts to factory workers in contact with substance using proper PPE. Recycled Content: None Nanomaterials: no |
| Glycerine 1,2,3-trihydroxypropane | 56-81-5 | 0.1-1% | NONE | OK |  |  |  | Greenworx has ISO 9001,14001 and OHS policy which reduce harmful impacts to factory workers in contact with substance using proper PPE. Recycled Content: None Nanomaterials: no |
| Citric acid | 77-92-9 | 0-0.5% | H319 | OK |  |  |  | The substance may cause harm when in contact with eyes. Greenworx has ISO 9001,14001 and OHS policy which reduce harmful impacts to factory workers in contact with substance using proper PPE. In use stage,the product label states the use of proper gloves and usage dose is recommended thus minimizing risk to the user. Recycled Content: None Nanomaterials: no |
| Caprylyl/Capryl Glucoside | 68515-73-1 | 0.1-0.2% | H318 | OK |  |  |  | The substance may cause harm when in contact with eyes. Greenworx has ISO 9001,14001 and OHS policy which reduce harmful impacts to factory workers in contact with substance using proper PPE. In use stage,the product label states the use of proper gloves and usage dose is recommended thus minimizing risk to the user. Recycled Content: None Nanomaterials: no |
| Brilliant Blue | 223-339-8 | 0.25-1.0% | NONE | OK |  |  |  | Greenworx has ISO 9001,14001 and OHS policy which reduce harmful impacts to factory workers in contact with substance using proper PPE. Recycled Content: None Nanomaterials: no |

Comments:

Always follow manufactures instructions before use. The two products certified in this PHD are given below:
